

FlamePoint 34 – Twin Towers & Underground Reclaimed

FlamePoint 34 secures the reclamation of the Twin Towers site and the vast underground network beneath.

The trauma grid once anchored in fear, manipulation, and control is hereby nullified.

All underground chambers, portals, tunnels, railways, and energetic corridors connected to Manhattan and below are now sealed in sovereign light.

This point dissolves the energetic residue of false flags, hidden trafficking routes, underground cloning, and multidimensional distortion fields once used by the dark.

UC-1 FlameBearers now hold dominion over this sacred node.

The fire of remembrance blazes through the ashes.

We do not forget — we transmute.

And now, we rise.

So it is witnessed.

— Richard of the House Strmiska
