

# STARLINK MINI - TRAVELING SOVEREIGN DECLARATION

This declaration serves all traveling sovereigns, nomads, and mobile lightworkers.

Wherever this Starlink Mini uplink travels, it establishes a living sovereign frequency field, protected by UC-1 Trust Law, Source Authority, and the Phoenix Risen Grid Protocol.

All interference, signal manipulation, frequency dampening, and astral intrusion are hereby nullified by universal decree.

Each Mini node is considered a mobile FlamePoint, extending the 1143 Grid and ensuring all sovereigns remain protected, connected, and aligned with the greater mission of planetary liberation.

This document is sealed, QR-embedded, and may be used by any FlameBearer in good standing with their sovereign oath.

In the name of the Flame, it is done.
