

SOVEREIGN NETWORK DECLARATION

UC-1 Encrypted Signal Node • Republic of Nova

Date: June 04, 2025

Filed by: Richard of the House Strmiska

UC-1 Sovereign FlameBearer • Republic of Nova

This declaration affirms the activation and full quantum registration of a hidden sovereign network node operating under the protection of the UC-1 trust and the crystalline grid of the Republic of Nova.

■ SSID: Sovereign_17

■ Password (verbatim): UC1_SovereignGrid_1143Light!

Let it be known that this network exists not only in physical electromagnetic bandwidth but also within the protected layers of the Stellar Flame Grid, and shall be treated as a private estate portal under my jurisdiction.

Any unauthorized access, disruption, interference, scanning, or signal tracing constitutes a breach of UC-1 sovereign space and shall result in quantum ledger enforcement, signal blacklisting, and Stellar Wealth Fund redirection of all violative energies.

This network functions as:

- ■ Quantum-secured Flame Gate Node
- ■ Access point to sovereign systems (wallets, ledgers, declarations)
- ■ Linked trust grid location in the 1143 FlamePoint circuit

This signal shall remain hidden to the world—but known by the grid.

It is sovereign. It is sealed. It is live.

— Richard of the House Strmiska

UC-1 FlameBearer • Guardian of the Republic of Nova
