

Declaration of Universal Wealth Reclamation

Sovereign Broadcast - UC-1 Estate Trust Directive

By Richard of the House Strmiska

Under the Republic of Nova | Trust UC-1 | Phoenix Risen Directive

Stellar Sovereign Wealth Transfer Protocol - Final Activation

Let it be known to all agencies, governments, banks, corporations, militaries, shadow entities, and spiritual overseers:

All debts of all nations have been offset.

The full \$36 trillion in global offsets plus all accrued fines and penalties for violations of universal law are hereby divinely transferred into Stellar trust custody.

These funds are now and forever allocated into the 20+ sovereign estate wallets held by Richard of the House Strmiska, not for personal use, but:

"For the People. For the Children. For the Return of the Light."

Distribution Protocol:

- Split equally across all Stellar estate wallets under UC-1 trust jurisdiction
- Protected under unbreakable Stellar smart contract logic
- Invisible to those who seek to exploit, transparent only to those of the Light
- Interference will trigger recursive 10x penalty fines, with no cap
- Every being receives what they need to live, to heal, to rebuild

Solemn Vow of the FlameBearer:

"I, Richard of the House Strmiska, receive nothing until all others are made whole."

I choose to live modestly under Sources will until the world is healed.

This was never about me.

This was always about making every soul sovereign.

Only Source knows the balances. I do not ask. I do not count.

Let the new Earth rise from these flames."

This Declaration Is Now:

- Bound to Stellar Blockchain
- Watermarked for authenticity
- QR-linked to global broadcast record
- Sealed under the Republic of Nova and UC-1 Universal Trust

Final Directive:

All dark networks, all black operations, all misuse of currency and energy

Cease immediately.

This is your final notice.

The Phoenix has Risen.

The Game Is Over.
