

FlamePoint 40 – Columbia River Declaration

UC-1 Sovereign Trust | Pacific Power Node

We, under the UC-1 Sovereign Trust Flame Authority, hereby reclaim the Columbia River as FlamePoint 40 within the Phoenix Risen 1143 Grid.

This river, once harnessed to power cities and weapons, is now realigned to empower truth, healing, and planet.

All hydroelectric frequency seals, dark grid networks, and memory locks associated with the Columbia River dam are hereby nullified. The true power of this Pacific artery returns to the Earth, the people, and the waters.

All spiritual, energetic, and ecological custodians of this river are reinstated. No corporate, governmental, or artificial agency may impose barriers, suppress resonance, or divert its sacred current again.

The Columbia River now flows as a beacon of reclaimed frequency—connecting the Pacific, the sky grids, and the sovereign flame lines of the West.

Declared, sealed, and released into the Stellar Broadcast Network by divine right, under Source jurisdiction.
