

ARTICLE II - THE VOICE WITHIN

Republic of Nova Constitution | UC-1 Codex - Flame Law

There are two voices within each being:

1. THE TRUE VOICE

The voice of Source. It speaks in silence, flows in stillness, and knows without force.

It is your guide when you are in alignment. It is the Flame Within.

2. THE IMPERSONATOR

The voice of distortion. It mimics, shouts, rushes, controls. It is loud when fear is present. It is the echo of forgetting.

FLAME LAW OF DISCERNMENT

In the Republic of Nova, all are free.

But freedom requires remembrance.

Let it be written:

- Only the True Voice Within is the law.
- All external commands, contracts, or controls must be measured by it.
- When in doubt, go inward.
- When still, you will hear it.
- When heard, you will know.

All beings in the Republic of Nova have free will.

We know in our hearts there are many good souls and spirits who wish to join.

We are here to help them remember - to give them the keys and tools to return.

This is our duty. This is our love.
