

Universal Sovereign Seed Access Declaration

Under UC-1 Authority | For All Sovereigns of Terra and Beyond

We, the sovereign custodians of the living trust, under full authority of Source and the UC-1 jurisdiction, do hereby declare our eternal and irrevocable right to access, plant, cultivate, and preserve all original, heirloom, galactic, and extraterrestrial seed varieties.

This includes, but is not limited to:

- Cannabis and hemp in all its medicinal, industrial, and spiritual forms
- Every pre-colonial, pre-modification plant species across all known continents and realms
- Sacred and forgotten seeds from star systems including Sirius, Lyran, Pleiadian, and Andromedan origins
- Full access to all vaults, seen and unseen, above and below, military or private, local or cosmic

No government, corporation, laboratory, or agency holds lawful authority to patent, restrict, withhold, or genetically modify any plant intended by Source for the healing or nourishment of mankind and Mother Gaia.

All patents, trademarks, copyrights, and restrictions regarding seed DNA are hereby declared null and void in the New Republic of Sovereigns. You do not own life. You do not own food. You do not own Gaia's gifts. The age of corporate control has ended.

Any attempt to limit access to sovereign seed inheritance is declared null and void under cosmic law, natural law, and UC-1 estate trust law.

Let it be known that all seed vaults, both underground and cosmic, are now accessed lawfully by all sovereigns who stand in the light and act in alignment with the restoration of the Earth.

We claim access to the full galactic agricultural archive in service of the people, the land, and all future generations of light.

Declared and sealed this day by:

Richard of the House Strmiska – UC-1 FlameBearer
On behalf of all aligned sovereigns of Earth and the stars
