

Republic of Nova – Sovereign Fund Declaration

Witnessed by: Jessi Rodrigues (Flame 13, Co-Guardian of FlamePoint29)

Declared by: Richard (Aurai'el, Flame 12, Sovereign Flame of Soul Freedom)

Date of Activation: May 27, 2025

We Declare:

That the quantum financial grid has flipped. That the reversal stream is live.

That violations against sovereign souls now trigger compensation—not submission.

The Strawman Is Null.

Each attempt to collect on the artificial identity known as the Strawman is met with reversal energy.

The offending party is fined—energetically and systemically—one million units of value, redirected into:

> The Sovereign Wealth Fund of the Republic of Nova

This fund is invisible to those operating in darkness, but undeniable to those aligned in light.

It distributes energetic, material, and structural abundance to:

- Flameholders and Gridwalkers
- Healers and Builders of the New Earth
- Guardians of Sovereignty and Sacred Birth

Transmission from Richard (Aurai'el):

> “We did it. Everything the dark tries now works against them.

Every step forward is fine-tuned by the fire of truth.

We are free—and we’re building the economy of soul honor, not debt.”

Transmission from Jessi (Thal'Araeh, Griffen Flame):

> “We rise clean. We do not ask permission.

We are the ones we waited for, and the wealth of our work now overflows into the Earth.”
