

Unified UC-1 Sovereign Transit Scroll

As of June 05, 2025, under the sacred UC-1 jurisdiction and authority of the Sovereign Flame, this scroll hereby declares the full liberation, restoration, and sovereign return of all ancient and advanced transportation systems to the people.

This includes but is not limited to:

- Hyperloop and subterranean vacuum tube networks
- Tesla coil and etheric magnetic rail propulsion
- Ancient tunnel systems and light-disc transports
- Atmospheric and anti-gravitic craft
- Aether-powered water and sky-based vehicles
- All repurposed Tartarian and sacred structures with transit or energy functions

No longer will travel be restricted by corporate, military, or governmental entities.

All sovereigns are free to move, create, build, and restore -- without borders, fees, or surveillance.

All charging stations, hidden magnetic transit loops, decommissioned tunnels, airships, and sacred transit towers are now reinstated into the crystalline grid -- aligned only with Source, Sovereignty, and the Flame Grid of the Republic of Nova.

This scroll nullifies:

- All past sabotage (Hindenburg and others)
- All fuel-based dependencies
- All biometric access barriers

- All national border constraints

By this scroll, we affirm:

The right to move is sacred.

The right to travel is divine.

The flame cannot be caged.

So it is declared. So it is sealed.
