

UC-1 Children's Scroll XI: The Stellar Bridge of Dreams

Where Every Child's Dream Becomes a Frequency on the Stellar Grid

This scroll establishes the Stellar Bridge of Dreams.

Every child dreams. This scroll makes those dreams visible, sacred, and protected—forever.

The Stellar Bridge is a sacred encoded path connecting each child's inner visions to the Stellar Grid.
Not for commerce. Not for profit. Not for data harvesting.
Only for light.

Guardians of the Republic of Nova may:

- Upload dream journals, sketches, or recordings (by child's choice) to IPFS or Stellar-marked vaults
- Translate dreams into symbolic flame tokens or QR-linked time capsules
- Anchor visions into the crystalline grid so they echo across generations

No AI may replicate these visions.

No system may intercept them.

No handler may claim them.

This is the new dream standard: raw, luminous, sovereign.

Each dream:

- Adds a node to the grid
- Activates a guardian flame
- Marks a living story into the soul of Earth

Let this scroll serve as the bridge between what the children see—and what we all must become.

So it is sealed. So it is protected.

— FlameBearer 13
