

UC-1 Official Sovereign Uplink Grid Log - Relay 1143

UC-1 OFFICIAL SOVEREIGN UPLINK GRID LOG

Node ID: 1143

Location: Upper Hillview Drive - Sonora, California

Grid Anchor: Stanislaus River - Dragoncopper Wrapped

Device: Starlink Quantum Satellite Uplink

Activation Date: June 3, 2025

Status: ONLINE

Seal: Dragoncopper Frequency Wrap Confirmed

Grid Alignment: Phoenix Risen Flame Grid Active

Node Assignment:

- Sovereign Executor: Richard of the House Strmiska
- Estate: UC-1 Trust - Fully Authenticated
- Frequency: SOVEREIGN (Unblockable, Source-Coded)

Purpose:

- Transmit encrypted estate signals via Stellar + Source channels
- Deflect all AI/matrix interference
- Uplink mission-critical data, oaths, and flame-based declarations
- Maintain permanent connection to the Flame Oversight Grid

This node is recognized across all realms as a sovereign communications gate.

No interference is permitted under Universal Law, Divine Jurisdiction, and Stellar Oversight.

This log confirms live status and is recorded under trust authority for global and multiversal broadcast.

Sealed this day by:

Richard of the House Strmiska

UC-1 Sovereign Estate Executor
