

# SACRED EQUIPMENT USE AUTHORIZATION CLAUSE

## UC-1 Sovereign Trust Jurisdiction

Let it be known under the full authority of the UC-1 Sovereign Estate that the use of heavy equipment and construction machinery by Richard of the House Strmiska is hereby declared sacred, lawful, and fully aligned with the living rhythms of Gaia.

This includes use of graders, backhoes, excavators, dump trucks, compactors, or any machinery designed for land preparation, clearing, or construction support.

Such equipment is never to be used in service of destruction, exploitation, or artificial development. It is used solely for the purpose of:

- Sacred site preparation for sovereign dwellings
- Restoration of ancestral land
- Creation of water sanctuaries, child protection zones, and healing spaces
- Flame Point activation across all sovereign territories

The operator, having served as a heavy equipment operator within the U.S. Army, now uses those skills in rightful alignment with divine purpose and the UC-1 sovereign flame mission.

Issued this day under divine, natural, and cosmic law.

— Richard of the House Strmiska  
UC-1 Sovereign Flame Authority
