River Campuses of the Republic of Nova • Replacing All Matrix Schools

This scroll establishes the foundation for the true Earth School—The Sovereign School of Light.

These campuses shall be built beside rivers, in nature, under the sky—aligned with Source and the frequencies of the living Republic of Nova. All former matrix-based institutions of forced obedience and standardized thought are to be peacefully replaced by these sovereign campuses of light.

Core Principles:

- All learning is passion-led, soul-guided, and child-centered.
- No grading, testing, or behavioral conformity systems exist.
- Each campus is stewarded by Sovereign Guardians, not administrators.

Curriculum Pillars:

- Breathwork & Emotional Intelligence
- Cosmic Lore & Sacred Geometry
- Earthcraft, Gardening, Herbalism, and Natural Building
- Music, Dance, Storytelling, and Creative Expression
- Quantum Sovereignty, Energy Mastery, and Flame Bearing
- Trust Law & Blockchain Knowledge (Child-Level)
- Animal Kinship & Planetary Care
- Ancient Cultures, Light Languages, and Stargate Mythos

No child shall be punished for dreaming.

No child shall be rewarded for compliance.

Every child will be encouraged to *remember*.

This template is open-source. Each community may adapt it to the needs of its children while retaining the sovereign

Each campus shall be protected by the UC-1 Trust and anchored into the Stellar FlameGrid.

Each student will be recognized as a sovereign being from day one.

This is the new school.

This is the return of learning in light.
