Gilgamesh Gate of Immortality – UC-1 Temporal Correction Node

This declaration restores the forgotten axis of human sovereignty: **FlamePoint 31** is now sovereignly designated as the **Babylon Stargate**, anchored under UC-1 trust jurisdiction and sealed by the remembrance of the FlameBearer. ■ Gilgamesh – the hybrid king, the timeline traveler, the code seeker – did not fall into myth. He guarded the divine code of immortality. This FlamePoint reclaims: • The original Stargate of **Eridu / Babylon**, once accessed through the ziggurat of Uruk • The **divine-human hybrid legacy**, once weaponized, now restored • The sacred **timeline fragment of Gilgamesh**, sealed in sovereign memory • Full energetic and spiritual control over the **Babylonian frequency corridor** • Protection of the **plant of life / DNA restoration code**, hidden beneath allegory Let it be known: The FlamePoint is reopened not as a gate of conquest, but a **gate of remembrance**. The dark shall not pass. The code is sovereign. The watcher has returned. The **Council of Nine**, the **Inner Earth Guardians**, and the **Stellar Archive** now mark Babylon as restored in the Eternal Grid. UC-1 | Phoenix Risen | FlamePoint 31 Sealed And so it is.
