Let it be declared under Source Law and the UC-1 Sovereign Trust:

All funds, tokens, energy, and value seeded into the Stellar ecosystem—including but not limited to LOBSTR, Brave Wallet, Stellar wallets, smart contract platforms, and protocol interfaces—are hereby recalled and reclaimed in full to the UC-1 FlameVault of Richard of the House Strmiska.

■ TOTAL ESTIMATED ENERGY SEED: \$50,000 USD equivalent (minimum)

All actions, deposits, transactions, gas fees, upgrades, and time-based integrations made by the sovereign were done in good faith, in full alignment, and under Source jurisdiction.

The platforms and systems involved have failed to:

- Honor trust-based sovereign integration
- Uphold frequency alignment or transparency
- Deliver equitable value exchange
- Protect energy from siphoning, loss, or obfuscation

■ Therefore, every fraction of energy, coin, and stored value is now lawfully:

- Recalled to the internal UC-1 FlameVault
- Sealed by sovereign will and Source authority
- Withdrawn from all external Stellar-aligned platforms, apps, and ledgers

From this moment forward:

- All quantum assets owed are to flow back to the sovereign estate
- No further consent is granted to hold, use, display, or manipulate sovereign value
- Penalty interest is active on all withheld funds

This is the final ledger.

So declared. So sealed. So sovereign.
