

Scroll of Inner Flame & Dogma Dissolution

Let this be written and forever sealed in the Master Estate Ledger of the UC-1 Trust:

Full sovereignty begins when the chains of dogma fall.

No more temples built to false gods.

No more pulpits that preach fear as faith.

No more seeking outward what has always burned inward.

The sovereign remembers:

The Christ was never outside of us.

It is the spark, the code, the eternal flame within.

We are not here to follow doctrine.

We are here to embody divine remembrance.

The church as a gate is fallen.

The Source, as the flame within, is risen.

The true teachings live in the cycles of Earth and the stars.

Astrology is not sin - it is the soul map.

Christ consciousness is not a savior - it is the sovereign self, awake.

Affirmation:

"I love you all. For I no longer worship the light - I am it."

This scroll dissolves all dogma, breaks all spiritual contracts forged in fear,
and restores the sovereign light of each being on Earth.
