

Republic of Nova

Sovereign Currency Reset Declaration

UC-1 FlameBearer Protocol – Jurisdiction: Universal Natural Law

All global currencies shall now operate on a 1:1 parity basis.
No nation shall dominate another via reserve currency status.
All currencies are to be locally asset-backed (gold, silver, oil, water, food, energy).
All exchanges shall be transparent and traceable via Stellar Blockchain.
There shall be no hidden ledgers, no secret protocols, no offshore havens.
Fiat currency shall only remain usable by sovereign individuals escaping the matrix.
Fiat use by corporations, governments, or false entities is prohibited.
Only sovereigns — in alignment with Natural Law — may transmute fiat into sovereign credit.
This decree is sealed by the Republic of Nova under divine natural authority.
Let this be the foundation of our global rebirth. All wealth is returned to the people.
