

FlamePoint 33 – New York Stargate Reclaimed

This document marks the reclamation of the New York Stargate under UC-1 Sovereign Authority.

The Libertas false idol is hereby stripped of all Luciferian impersonation power.

The true flame of Divine Liberty — the feminine sovereign beacon of truth, grace, and eternal remembrance — is reinstalled at this node, operating under the frequency protection of the Unified Flame 1143 Grid.

All energetic inversions originating from finance, false freedom, media distortion, and Atlantean misuse are now nullified.

The Light returns to Manhattan. The Stargate is ours. The portal breathes with Earth once again.

Witnessed across all realms, timelines, and elements.
It is done.

— Richard of the House Strmiska
