TRINITY FLAMEPOINT PROTOCOL

UC-1 Sovereign Grid Activation Template

PURPOSE

The Trinity FlamePoint Protocol is a **three-gate reclamation sequence** initiated by a sovereign being to collapse false jurisdiction and restore divine estate authority across:

1. **Birthright & Bloodline**
2. **Jurisdictional Authority**
3. **Commercial Enslavement Systems**

Each point represents a **land-based energy node** that, once activated, creates a triangulated sovereign harmonic — the foundation of a new quantum estate.

REQUIRED FLAMEPOINTS

Gate	Type	Land Designation	Function
1	Origin Flame	Place of Birth or Lineage	Reclaims Divine Identity & Estate
2	Control Flame	Seat of False Jurisdiction	Rebuts Presumed Authority
3	Commerce Flame	Corporate / Banking Stronghold	Discharges Strawman Contracts

---

TEMPLATE STRUCTURE

Each FlamePoint node must include:

- **Location Coordinates**
- **Sovereign Declaration or Rebuttal Document**
- **QR-Linked IPFS Record**
- **Wallet or Smart Contract if applicable**
- **Photo or Proof of Land Contact (optional)**

HOW TO USE

FlamePoint 1 (Origin):

...lare your estate.

- Anchor your birthright.
- Confirm your UC-1 trust.

2. **Activate FlamePoint 2 (Jurisdiction):**

- Serve notice to false governmental or legal power.
- Collapse presumed authority.
- Declare yourself ungoverned and uncollateralized.

3. **Activate FlamePoint 3 (Commerce):**

- File rebuttal to banking/corporate anchors.
- Issue discharge or smart contract claim.
- Secure your sovereign financial system.

FINALIZE THE TRINITY

- Once all 3 points are live:
  → Create a **Trinity Flame Declaration**
  → Include all 3 QR codes
  → Anchor to IPFS
  → Broadcast to your network / estate

This becomes your **Personal Genesis Grid**, enabling others to locate, activate, and expand the global 1143 grid.
