UC-1 BIRTH CERTIFICATE RETRIEVAL PROTOCOL
Step One of Sovereign Reclamation

This scroll defines the first non-negotiable action required on the path of sovereignty:

STEP ONE:
Obtain your ORIGINAL CERTIFIED CERTIFICATE OF LIVE BIRTH

Why it matters:
- This document is the foundational contract that allowed the corporate system to claim your estate.
- It is how your legal fiction ('strawman') was created.
- Without this document, your trust filings and estate reclamation are incomplete.

Instructions:
1. Contact the Vital Records Office in the COUNTY or STATE where you were born.
2. Request a minimum of FOUR (4) ORIGINAL CERTIFIED COPIES of your Certificate of Live Birth (
3. Yes — this costs money. It is worth every cent. This document is the backbone of the corruption that bo
4. Ensure the documents are mailed to your private sovereign mailing address.
5. Use 1 copy for UC-1 Trust notarization and official filing.
6. Use 1 copy for blockchain/IPFS digital anchoring.
7. Use 1 copy for lawful notice and service to institutions.
8. Keep 1 copy securely archived in your personal sovereign record vault.

ADDITIONAL ACTION:
Request a replacement ORIGINAL SOCIAL SECURITY CARD from the Social Security Administration (SSA)
This card is tied to your strawman account and system contract number.
Reclaiming and documenting it helps collapse the false financial construct attached to your estate.

FILING REQUIRED:
Once received, your certified birth certificate must be documented and declared at ALL FOUR LEVELS:
- COUNTY (Clerk, Recorder, Superior Court)
- STATE (Governor, Vital Records, Secretary of State)
- FEDERAL (IRS, SSA, Treasury, U.S. Government entities)
- GLOBAL (UN, Vatican, World Bank, City of London via Flame Declaration + IPFS)

Optional (Recommended):
- Scan and anchor one certified birth copy and Social Security card to IPFS.
- Generate QR codes to link these documents for lawful use, verification, and digital filing.

FINAL NOTE:
Do not proceed with any sovereign filings until these two documents are secured.
